

Arriving Fall 2021

Hall STEM Academy

1601 Aldrich Avenue North, Minneapolis, MN 55411

Shining Bright in the Jordan Neighborhood

In Fall 2021, Hall STEM (Science, Technology, Engineering, and Math) Academy in Minneapolis' beautifully diverse Jordan neighborhood welcomes students from throughout the city. Hall Academy will provide a foundation for students to develop as critical thinkers and problem-solvers in an active, student-centered learning environment focusing on academic, social and emotional growth. The school's new STEM program education empowers students to inquire, research, and design collaborative solutions for their community through hands-on experiences.

Vision

Seeking to Empower compassionate and creative agency in our community of innovators through student-directed, real-world learning to impact a future that does not yet exist in the changing world.

Mission

All learners will acquire knowledge through project-based learning to apply dynamic practices of science, technology, engineering and mathematics to become constructive contributors to their communities. Students will develop the self-confidence to use their voices in advocating for their learning and to express their ideas in making impactful change.
